

src/example-string.c

```
graph TD; A[src/example-string.c] --> B[stdio.h]; A --> C[string.h];
```

A diagram illustrating the dependencies of the source file `src/example-string.c`. The source file is represented by a gray rectangular box at the top. Two blue arrows originate from the bottom of this box and point downwards to two separate white rectangular boxes. The left box contains the text `stdio.h` and the right box contains the text `string.h`. This visualizes that the source file includes or depends on these two header files.

stdio.h

string.h
